

HIWOT TAKELE

Full Stack Web Developer

Profile

Versatile Full Stack Web Developer with a background in Electrical Engineering and a solid grasp of control theory, automation, and robotics. Proficient in developing responsive, high-performance web applications and skilled in both front-end and back-end technologies. Demonstrated expertise through projects like Amazon and Netflix clones, showcasing the ability to craft user centered applications that balance function and design. Driven by a passion for problem-solving and continuous learning, I am eager to bring my technical skills and creative approach to a collaborative, growth-focused team.

Work Experience

Ethio Telecom

Performance Analyst

2020

-

2024

- Gained valuable telecommunications experience by monitoring, analyzing, and optimizing network performance metrics
- Identified trends and prepared KPI reports
- Assessed network capacity and forecasted future needs
- Collaborated with cross-functional teams, enhancing technical skills, communication, and teamwork
